EDUCATION

National School of Mines of Rabat – ENSMR **2023 – 2026**
Engineering Program – Computer Science, Data Engineering track Rabat, Morocco

Preparatory Classes for Engineering Schools – CPGE **2021 – 2023**
Mathematics and Physics track

Baccalaureate, Mathematical Sciences – Option A **2021**
With Highest Honors

PROFESSIONAL EXPERIENCE

Final Year Project – Ticketing Management System **Feb. – June 2026 | 5 months**
Barid Cash (subsidiary of Al Barid Bank), Information Systems Department Rabat, Morocco

- Designed and developed a proof of concept for a proprietary ticketing management system based on ERM HUB workflows, featuring 6 user profiles and a 12-status ticket lifecycle, fully modeled in UML.
- Implemented JWT authentication, role management, and automatic ticket routing using Spring Boot / Java 17 (Spring Security, Spring Data JPA, SQL Server) with an Angular 15 / TypeScript frontend.
- Set up schedulers for SLA monitoring, automatic ticket closure, and internal/email notifications, along with role-based dashboards.
- Led the project using the Scrum methodology across 5 sprints as Scrum Master, working directly with the business Product Owner.

Year-End Project – Railway Safety Inspection Management **July – Sept. 2025 | 3 months**
O□ce National des Chemins de Fer (ONCF), Information Systems Department Rabat, Morocco

- Designed a railway safety inspection management application (KN1 level), modeled in UML, as part of ONCF's Safety Management System.
- Implemented the SAMI scoring engine, automatic certification-expiration alerts, and tracking/reporting dashboards (KPIs) using Spring Boot (Java 17), Spring Security/JWT, PostgreSQL/SQL Server, and React.js.

Introductory Internship **August 2024 | 1 month**
O□ce National des Chemins de Fer (ONCF), General Management Rabat, Morocco

- Developed a web platform (HTML, CSS, JavaScript, PHP, Python) showcasing ONCF's IT department services, featuring an interactive map and a careers page allowing resume submissions.

PROJECTS

FraudDetect – Web Platform & Artificial Intelligence
Stack: React.js, FastAPI, PostgreSQL, CNN, OCR, Siamese Network

- Check fraud detection platform combining AI analysis (CNN, OCR, signature verification) with secure multi-actor management via 2FA/JWT authentication.

SentinelAI – Full-Stack SaaS & Cybersecurity
Stack: React.js, Node.js, Express.js, MongoDB, OWASP ZAP, Docker

- SaaS platform automating website security audits (XSS, SQL Injection, CSRF) via REST API and OWASP ZAP, with report generation and containerized deployment.

ENIMSPORTS – Full-Stack Web Application
Stack: React.js, TypeScript, Next.js, MongoDB, Tailwind CSS

- Tournament management and field booking platform with automatic match scheduling, notifications, and continuous deployment via Vercel and GitHub Actions.

TECHNICAL SKILLS

Languages: Java, Python, TypeScript, JavaScript, SQL

Full-Stack Development: Spring Boot, Angular, React.js, Next.js, FastAPI, REST API

Databases & Persistence: PostgreSQL, SQL Server, MySQL, MongoDB, JPA/Hibernate

DevOps & Cloud: Docker, Git/GitHub, CI/CD, Linux, AWS, Azure

Data & AI: Pandas, Scikit-learn, Apache Spark, ETL, Machine Learning, OCR

Design & Methods: UML, REST Architecture, Agile/Scrum, Jira

LANGUAGES

Arabic: Native **French:** Professional **English:** Professional
